Energy-efficient lighting systems.

Cooper Lighting offers outstanding energy savings, excellent light output.

Designed to meet the challenges of today's industrial environments, Metalux's industrial fluorescent products offer a 30-70% energy savings opportunity for comparable light levels. With instant start/restrike, longer life, and superior quality of light, Metalux products are the ideal industrial solution.

Visit www.cooperenergysolutions.com or email TalkToUs@CooperIndustries.com to receive a copy of the Industrial Fluorescent Energy Solutions brochure.
